Hi Class, just some quick notes for tomorrow's Assessment.

- * Bring your Sharpie (Marker Pen) and pens.

- * Bring your Learner Guide.

- * Wait at the door with Lab coat on, long pants, enclosed footwear and goggles/safety glasses.

- * No phones.

Make sure you label everything correctly.

I need to see your tests before you throw them away.

Place your name on the white board when you want me to observe your results (one test at a time, or all at once...up to you).

Make sure you have recorded your QC results before you write your name on the white board.

2 hours will pass fast. If you are in a panic or short on time, make sure you complete a number of tests correctly and you can finish the rest in Session 10.
